CALIBER® Horse Feeds are designed to provide sound nutrition for each stage of your horse's life. From growth and development, to training and competition, and into the golden years of the senior horse, CALIBER® Horse Feed is there.

- **Proprietary** mineral and vitamin levels are from **organic** sources and **specialized** vitamin packs.
- Rations are balanced with **amino acids** to promote proper growth, a healthy immune system, muscle and joint integrity, and enhanced performance and recovery in competition horses.
- Biotin and thiamine **fortify** the feed for hoof health and coat condition.
- Prebiotics (yeast culture) are included for **gut health** and improved fibre **digestion**.
- **Low starch, Cool Energy** rations derive higher levels of **energy** from **digestible fibre** and **fat** instead of starch, maintaining insulin levels and reducing instances of hyperactivity, metabolic issues, Developmental Orthopedic Disease (DOD), ulcers, laminitis and tying up. **Cool Energy** rations are available in Senior and Working horse rations.
- Mare and Foal ration is designed to support mares through the high nutritional demands of pregnancy and lactation, as well as support proper growth and skeletal development in foals to aid in the prevention of DOD.
- CALIBER® Horse Feed is powered by over **60 years** of **Cooperative Research Farms** research.

Choose the CALIBER® Horse Feed that is right for your situation and your horses' nutritional needs. All CALIBER® Horse Feeds are designed to be fed alongside good-quality hay.

CALIBER® Rations*

CALIBER® Mare & Foal Ration (16% protein)

- Feed to mares in late pregnancy and early lactation, as well as to foals up to one year of age
- Pelleted formula ensures balanced nutrition in each bite

CALIBER® Complete Horse Ration (12% protein)

- A high-quality feed designed to meet the basic nutrient requirements of horses at all stages of life

CALIBER® Performance Horse Ration (14% protein)

- Delivers optimal performance nutrition to horses with high energy demands
- Available as pellets or textured

CALIBER® Working Horse Ration (15% protein)

- Cool Energy ration
- Highly fortified formula means elevated requirements of the working horse are met with a low feeding rate

CALIBER® Senior & Special Care Ration (14% protein)

- Cool Energy ration
- Meets the unique needs of the senior horse and is also suitable for horses with metabolic concerns

CALIBER® Gastrotech™ Supplement

- Research proven to improve gastric health significantly in performance horses. Caliber® Gastrotech™ Supplement is an excellent choice for horses under stress from training, competing and travelling

CALIBER® Performance Horse Mineral

- Provides balanced mineral and vitamin nutrition, prebiotic (yeast culture), amino acids (lysine, methionine, and threonine) and antioxidants for performance horses in regular work

CALIBER® Pasture Horse Mineral

- Loose and block form
- Meets the basic mineral and vitamin requirements for all horses
