

CO-OP® SURFACTANT NI

SAFETY DATA SHEET

1: CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name: CO-OP® SURFACTANT NI
Product Use: Agricultural Adjuvant
Pest Control Product Number: 33300
Manufacturer /Supplier: INTERPROVINCIAL COOPERATIVE LTD.
945 Marion St.
Winnipeg, Manitoba
R2J 0K7
www.ipco.ca
Effective Date: 23/01/2019

2: HAZARD IDENTIFICATION

Physical hazards: Flammable liquids
Health hazards: Serious eye damage/eye irritation (Category 1)
Specific target organ toxicity following single exposure-Respiratory tract irritation (Category 3)
Environmental hazard: Not classified.
Label elements:

Signal word: Danger
Hazard Statement: Combustible liquid. Causes serious eye damage. May cause respiratory irritation.
Precautionary statement Prevention: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Wear protective gloves, protective clothing and eye protection. Avoid breathing mist or vapor. Use only outdoors or in a well-ventilated area.
Response: In case of fire: Use appropriate media to extinguish.
IF INHALED: remove person to fresh air and keep comfortable for breathing. Call a POISON CENTRE if you feel unwell.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor.
Storage: Store in a well-ventilated place. Keep container tightly closed. Store locked up.
Disposal: Dispose of container in accordance with local, regional, national and international regulations.
Other hazards: None known.
Supplemental information: Classification in accordance with Canada WHMIS 2015 regulation. Exempt - Registered product - (PCP 33300).
This product is not subject to the Hazardous Products Act (HPA) Part II (Hazardous Products) as per paragraph 12(j); Schedule 1 (Non-Application of Part II).
This restriction states that Part II does not apply in respect of the sale or importation of anything listed in Schedule 1 which includes any pest control product as defined in

In case of emergency call CANUTEC at 613-996-6666

subsection 2(1) of the Pest Control Products Act, any explosive as defined in section 2 of the Explosives Act, any cosmetic, device, drug or food, as defined in section 2 of the Food and Drugs Act, any consumer product as defined in section 2 of the Canada Consumer Product Safety Act and any wood or product made of wood.

3: COMPOSITION AND INFORMATION ON INGREDIENTS

COMPONENT	CAS NUMBER	% (W/W)
Surfactant blend	Mixture	100

4: FIRST AID MEASURES

Eye contact:	IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then, continue rinsing eye. Call a poison control center or doctor for treatment advice.
Skin contact:	IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
Inhalation:	IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
Ingestion:	IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
Notes to physician:	Nausea, vomiting. Abdominal pain. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation. Treat symptomatically.
General advice:	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Keep out of reach of children. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

5: FIRE-FIGHTING MEASURES

Flammable properties:	Combustible liquid.
Suitable extinguishing media:	Water fog. Foam. Dry chemical powder. Carbon dioxide.
Unsuitable extinguishing media:	Do not use water jet as an extinguisher, as this will spread the fire.
Protective equipment and precautions for firefighters:	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Firefighting equipment/instructions:	In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk. Use standard firefighting procedures and consider the hazards of other involved materials.
Hazardous combustion products:	May include and are not limited to: Oxides of carbon.

6: ACCIDENTAL RELEASE MEASURES

In case of emergency call CANUTEC at 613-996-6666

Interprovincial Cooperative Ltd.; Information Phone: 204-233-3461

Effective Date:

PCP# 33300

January 23, 2019

Page 2 of 7

Personal precautions:	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Environmental precautions:	Avoid discharge into drains, water courses or onto the ground. Do not discharge into lakes, streams, ponds or public waters.
Methods for containment:	Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil etc.) away from spilled material. Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible.
Methods for cleaning up:	Soak up spill with absorbent material (kitty litter, granular clay, soil) and collect into a waste container. Wash spill site with water after material pick-up and dispose with waste. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

7: HANDLING AND STORAGE

Handling:	<p>Keep away from open flames, hot surfaces and sources of ignition. When using do not smoke.</p> <p>Provide adequate ventilation. Avoid prolonged exposure. Wear appropriate personal protective equipment. Wash thoroughly after handling. Use good industrial hygiene practices in handling this material. When using do not eat or drink.</p> <p>For optimal storage, store product between 5°C and 32°C.</p> <p>During mixing, loading, application, spill clean-up and sprayer clean-up, maintenance or repair, wear a long-sleeved shirt, long pants, socks and shoes and chemical resistant gloves. Avoid contact with eyes, skin and clothing. Wash thoroughly with soap and water after handling. Avoid breathing spray mist. Store away from food or feed. Do not contaminate water supplies, wetland areas, or any body of water by direct application, spray drift or when cleaning and rinsing spray equipment or containers. When applied as a tank-mix combination, read and observe all label directions, including rates, personal protective equipment, restrictions and precautions for each product used in the tank-mix. Always use in accordance with the most restrictive label restrictions and precautions.</p> <p>RE-ENTRY: Workers should not enter treated fields within the period of re-entry time stated on the label of the pesticide applied in conjunction with Co-Op Surfactant NI.</p>
Storage:	<p>Store locked up. Keep away from heat, sparks and open flame. Keep in an area equipped with sprinklers. Keep out of reach of children. Store in a cool, dry and well-ventilated area. Keep in original container tightly closed in a safe place when not in use. Keep away from food, drink and animal feedstuffs.</p>

8: EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Limits for Product:	COMPONENTS	TYPE	VALUE
	US. ACGIH Threshold Limit		
	Propanoic acid (CAS 79-09-4)	TWA	10 ppm
	Canada. Alberta OELs (Occupational Health & Safety Code, Schedule 1, Table 2)		
	Propanoic acid (CAS 79-09-4)	TWA	30 mg/m ³
			10 ppm
	Canada. British Columbia OELs. (Occupational Exposure Limits for

Chemical Substances, Occupational Health and Safety Regulation 296/97, as amended)

Propanoic acid (CAS 79-09-4) TWA 10 ppm

Canada. Manitoba OELs (Reg. 217/2006, The Workplace Safety and Health Act)

Propanoic acid (CAS 79-09-4) TWA 10 ppm

Canada. Ontario OELs. (Control of Exposure to Biological or Chemical Agents)

Propanoic acid (CAS 79-09-4) TWA 10 ppm

Canada. Quebec OELs. (Ministry of Labor - Regulation Respecting the Quality of the Work Environment)Propanoic acid (CAS 79-09-4) TWA 30 mg/m³
10 ppm

Biological limit values: No biological exposure limits noted for the ingredient(s).

Special Engineering Controls: Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye Protection: Wear safety glasses with side shields (or goggles).

Respiratory Protection: Where exposure guideline levels may be exceeded, use an approved NIOSH respirator. Respirator should be selected by and used under the direction of a trained health and safety professional following requirements found in OSHA's respirator standard (29 CFR 1910.134), CAN/CSA-Z94.4 and ANSI's standard for respiratory protection (Z88.2).

Skin protection: Wear suitable protective clothing. As required by employer code.

Hand: Chemical resistant (butyl, nitrile, Viton rubber) Confirm with a reputable supplier first.

Body: Wear suitable protective clothing. As required by employer code.

General hygiene considerations: When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. When using do not eat or drink.

9: PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Liquid

Appearance & Odor: Amber to brown liquid with strong vinegar odor

Specific Gravity (@ 20°C): 0.989 - 1.027 Kg/L

Vapor density: Not available.

Solubility in water: Not available.

Freezing point: Not available.

Boiling point (°C): Not available.

Odor threshold (ppm): Not available.

Coefficient of water/oil distribution: Not available.

Vapor pressure (mm Hg): Not available.

Evaporation rate: Not available.

pH: 3.2 (1% solution in water)

Viscosity: 24.5 cps @ 20°C

Flash Point & Method (°C): 64.0 °C (147.2 °F) Pensky-Martens Closed Cup

Page 4 of 7

Flammable Limits (% in air):	Not available.
Autoignition Temperature (°C):	Not available.
Other information:	Not explosive. Not oxidizing.

10: STABILITY AND REACTIVITY

Chemical stability:	Material is stable under normal conditions.
Reactivity:	This product may react with strong oxidizing agents.
Conditions to avoid:	Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point.
Incompatible materials:	Strong oxidizing agents.
Hazardous decomposition products:	May include and are not limited to: Oxides of carbon.
Possibility of hazardous reactions:	No dangerous reaction known under conditions of normal use.

11: TOXICOLOGICAL INFORMATION**Information on likely routes of exposure**

Inhalation:	May cause irritation to the respiratory system. Prolonged inhalation may be harmful.
Skin contact:	Non-irritating based on test data.
Eye contact:	Causes serious eye damage.
Ingestion:	May cause stomach distress, nausea or vomiting.

Information on likely routes of exposure/Symptoms related to the physical, chemical and toxicological characteristics: Nausea, vomiting. Abdominal pain. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation.

Information on toxicological effects:

Acute toxicity:	Dermal: LD ₅₀ (Rabbit)-5050 mg/kg, Tested Oral: LD ₅₀ (Rat)>5000 mg/kg, Tested
Skin corrosion/irritation:	Non-irritating to skin based on test data.
Exposure minutes:	Not available.
Erythema value:	Not available.
Oedema value:	Not available.
Serious eye damage/eye irritation:	Causes serious eye damage.
Corneal opacity value:	Not available.
Iris lesion value:	Not available.
Conjunctival reddening value:	Not available.
Recover days:	Not available.
Respiratory sensitization:	Not a respiratory sensitizer.
Skin sensitization:	This product is not expected to cause skin sensitization.
Germ cell mutagenicity:	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity:	Not available.
Reproductive toxicity:	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity-	May cause respiratory irritation.

In case of emergency call CANUTEC at 613-996-6666

Interprovincial Cooperative Ltd.; Information Phone: 204-233-3461

Effective Date:

single exposure:	
Specific target organ toxicity- repeated exposure:	Not classified.
Aspiration hazard:	Not an aspiration hazard.
Chronic effects:	Prolonged inhalation may be harmful.
Further information:	Not available.

12: ECOLOGICAL INFORMATION

Ecotoxicity:	Do not apply to aquatic systems.
Persistence and Degradability:	No data is available on the degradability of this product.
Bioaccumulation/Accumulation:	No data available.
Mobility in environmental media:	No data available.
Other adverse effects:	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation).

13: DISPOSAL CONSIDERATIONS

Disposal instructions:	<p>DECONTAMINATION AND DISPOSAL: For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.</p> <p>FOR DISPOSAL OF PLASTIC JUGS: Do not reuse this container for any purpose. This is a recyclable container, and is to be disposed of at a container collection site. Contact your local distributor/dealer or municipality for the location of the nearest collection site. Before taking the container to the collection site.</p> <ol style="list-style-type: none"> 1. Triple- or pressure-rinse the empty container. Add the rinsing to the spray mixture in the tank. 2. Make the empty, rinsed container unsuitable for further use. If there is no container collection site in your area, dispose of the container in accordance with provincial requirements. <p>FOR REFILLABLE CONTAINERS: For disposal, this container may be returned to the point of purchase (distributor/dealer). It must be refilled by the distributor/dealer with the same product. Do not use this container for any other purpose. If the container is not being refilled, refer to the section FOR DISPOSAL OF PLASTIC JUGS.</p> <p>EMERGENCY TELEPHONE NUMBER: All hours, (613) 613-996-6666 ONLY for health and environmental information.</p>
Local disposal regulations:	Dispose of contents/container in accordance with local/regional/national/international regulations. Dispose in accordance with all applicable regulations.
Hazardous waste code:	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products:	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging:	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14: TRANSPORT INFORMATION**Transportation of Dangerous Goods (TDG - Canada):**

Not regulated as dangerous goods.

15: REGULATORY INFORMATION

Canadian federal regulations: Exempt - Registered product - (PEST CONTROL PRODUCTS ACT: REGISTRATION NO. 33300).
 This product is not subject to the Hazardous Products Act (HPA) Part II (Hazardous Products) as per paragraph 12(j); Schedule 1 (Non-Application of Part II).
 This restriction states that Part II does not apply in respect of the sale or importation of anything listed in Schedule 1 which includes any pest control product as defined in subsection 2(1) of the Pest Control Products Act, any explosive as defined in section 2 of the Explosives Act, any cosmetic, device, drug or food, as defined in section 2 of the Food and Drugs Act, any consumer product as defined in section 2 of the Canada Consumer Product Safety Act and any wood or product made of wood.
 Read the approved PCPA label prior to using or handling the pest control product.
 This chemical is a pest control product registered by Health Canada Pest Management Regulatory Agency and is subject to certain labelling requirements under the Pest Control Products Act. These requirements differ from the classification criteria and hazard information required for GHS-consistent safety data sheets. Following is the hazard information required on the pest control product label:
READ THE LABEL BEFORE USING.
PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN.
 Warning contains the allergen soy.
 WHMIS status: Exempt.
