WHOLE EARTH® POULTRY

CO-OP® WHOLE EARTH® poultry bagged feed products

- A premium feed product from Co-op FEEDS
- Free of any animal byproducts or antibiotics
- Nutritionally balanced for digestible protein (amino acids), minerals and vitamins
- Supplemented with enzymes and gut health modulators for better digestion
- Choice feed for birds' full satisfaction and optimum performance
- Products are designed by a professional poultry nutritionist
- Feeds are formulated by using the latest research in poultry nutrition

Major Ingredients: Wheat, barley, corn, corn distillers's grains with solubles, canola meal, peas, soybean meal, salt, enzymes, amino acids, gut-health promoters (Sodium salt of short-chain fatty acids and yeast cell-wall byproduct), minerals and vitamins.

Feeding Direction

- WHOLE EARTH® Complete Feeds: Feed birds free choice
- WHOLE EARTH® Poultry Supplement (#24618): Mix the supplement with on-farm ingredients to make complete diets, as shown below:

Ingredients (kg)	Pullet Grower–Developer (8–17 weeks)	Layer Ration	Meat Type Birds Grower Ration	Meat Type Birds Finisher Ration
CO-OP® 35% WHOLE EARTH® Poultry Supplement	150	225	250	200
Wheat (kg)	600	600	600	700
Oats/Barley (kg)	240	100	150	100
Limestone (38% Calcium) kg	10	75	–	–
Total (kg)	1000	1000	1000	1000

Here are some poultry management tips for achieving an optimum performance:

- Provide clean drinking water to the birds all the time
- Keep the litter/bedding dry
- Clean the feeders and waterers daily
- Protect from rodents and other scavengers
- Maintain good coop temperature and air quality
- Use of good-quality grains
- Remove dead birds, if any, daily
